

Evo Gloss
High Gloss Panel

Details making the difference

VALUABLE. ORIGINAL. NATURAL

Evogloss trend decors will inspire you with original color choices,
impressive style and beauty of simplicity.

EVOGLOSS TECHNICAL FEATURES

EVOGLOSS panels are obtained by coating the surface of high quality MDF panels with pvc and/or pet foils having more than a hundred glossy and matte decor options. Evogloss panel options offer you the opportunity to create unique, modern and aesthetic living spaces.

The front surface of the panels is covered with Evogloss PVC or PET and the back side is covered with white impregnated paper or lining.

PANEL FEATURES

- 01 PET - PVC COATING**
High-grade, scratch- and fade-resistant decorative coating
- 02 MDF**
Strong board with high pressure resistance that fits for E1 norms
- 03 IMPREGNATED PAPER**
Impregnated decorative paper

BOARD TYPE	MDF
PANEL THICKNESS*	8-18 mm
PANEL SIZES	1220x2800 mm
FOLIO THICKNESS	0,2 mm - 0,25 mm - 0,3 mm - 0,4 mm
FOLIO TYPE	PVC and/or PET

*Production in different sizes within the range requires a certain order quantity.

PANEL ADVANTAGES

Modern glossy and matte patterns leading the trends, adding deepness to your living spaces with high gloss, stylish looking and mirror-effect glossy surfaces, bringing naturalness to your living spaces with matte surfaces, preserving the first day appearance for many years due to high resistance to fading characteristics, being easy to clean as well as having no loss of brightness on the surfaces due to cleaning.

HIGH GLOSS (GLOSSY)

MIRROR EFFECT (GLOSSY)

SOFT TOUCH (MATTE)

RESISTANT TO STAIN

RESISTANT TO SCRATCHING

EASY CLEAN

RESISTANT TO CRACKING

LOW MICRO SCRATCHES

PANEL STORAGE AND CONDITIONS OF USE

The ideal storage temperature is room temperature (23 °C). It should not be exposed to direct sunlight and heat for a long time. Solvents, thinners or abrasive cleaning agents should not be used while cleaning the surface. It should be stored using appropriate load carriers without extra load on the flat surface. It should not be left for long periods in dusty environments with high air flow rates.

Evogloss PET and PVC are surface materials with a UV resistance rating of Gray Scale 4/5 or higher according to the standards of EN 15187 Furniture - Light Exposure Effect Evaluation standards, which have a low-carbon structure with formaldehyde, cadmium, lead-based stabilizers and carcinogens determined by the international REACH organization.

8-18 mm thickness,
1220x2800 mm sized panels are produced.
